If you are allergic or intolerant to one or more substances, please let us know.”

\* The food has been subjected to a fast-cooling technique in order to preserve the organoleptic-nutritional characteristics and guarantee hygienic-sanitary safety

## Pizza

Pizza with its many types and countless variations is subject to the individual taste and eating habits of each so that being able to satisfy everyone with a single proposal is impossible. The pizza for me must be rustic, digestible and genuine. To obtain a final rustic product I selected very rough stone-ground flour type 1 and wholemeal, rich in fiber and mineral salts. To make it more digestible I chose to use only natural sourdough and many hours of maturation. To season it I chose the typical and genuine products of our Italian tradition such as fresh mozzarella, buffalo mozzarella from Campana D.O.P., Parma ham D.O.P., bresaola from Valtellina I.G.P., gorgonzola D.O.P., taleggio D.O.P. Hoping that it will be to your liking I wish good pizza to all ..

## Classic Pizza

Marinara: Tomato, Garlic, Oregano 1	6,50
Margherita: Tomato, Mozzarella, Basil 1,7	8,50
Pugliese: Tomato, Mozzarella, Onion, Oregano 1,7	9,00

## Allergen List

In compliance with the European Union Regulation No. 1169/2011, in the list below you will find some allergens (substances that are usually harmless to most people, but which in some individuals are capable of producing allergic manifestations of various kinds).

**1 - Cereals containing gluten**

Wheat, rye, barley, oats, spelt, kamut or their hybridized strains and derived products.

Wheat-based glucose syrup, including dextrose, is excluded;

wheat-based maltodextrins; glucose syrups made from barley and cereals used in the manufacture of alcoholic distillates, including ethyl alcohol of agricultural origin.

**2 - Crustaceans and crustacean products**

All products that may contain crustaceans, even in trace amounts.

**3 - Eggs and egg products**

Products that may also contain trace amounts of eggs.

**4 - Fish and fish products**

with the exception of fish gelatine used as a carrier for vitamin or carotenoid preparations and gelatine or isinglass used as a fining agent in beer and wine.

**5 - Peanuts and peanut products**

All products that contain peanuts or may also contain traces of peanuts

**6 - Soya and soybean products**

However, there is no obligation to report the presence of refined soybean oil and fat; natural mixed tocopherols (E306), natural D-alpha tocopherol, natural D-alpha tocopherol acetate, natural soy-based D-alpha tocopherol succinate; vegetable oils derived from phytosterols and soy-based phytosterol esters; or plant stanol ester produced from soybean-based vegetable oil sterols.

**7 - Milk and milk-based products**

Lactose is included in this section, but not whey used in the manufacture of alcoholic distillates or milky.

**8 - Nuts**

Namely: almonds, hazelnuts, walnuts, agachu nuts, pecans, Brazil nuts, pistachios, macadamia nuts or Queensland nuts and their products.

**9 - Celery and celery products**

All products that contain or may contain celery, even in trace amounts.

**10 - Mustard and mustard products**

All products that contain mustard, even in trace amounts.

**11 - Sesame seeds and products thereof**

All those products that contain or may contain sesame and sesame seeds, even in trace amounts.

**12 - Sulphur dioxide and sulphites**

Sulphites and sulphur dioxide in concentrations above 10 mg/kg or 10 mg/litre in terms of total SO<sub>2</sub> to be calculated for products as offered ready for consumption or reconstituted in accordance with manufacturers' instructions.

**13 - Lupin and lupin products**

All products that may contain lupins even in trace amounts.

**14 - Molluscs and mollusc products**
